

SMART ASSET MANAGEMENT

COMPLETE CONTROL. TOTAL VISIBILITY.

UniAsset is a comprehensive Asset Management Application that enables organizations to efficiently track, manage, and optimize both physical and digital assets across multiple locations through a centralized platform. It provides complete lifecycle visibility—from procurement and deployment to maintenance, transfer, and retirement—ensuring accurate tracking, improved accountability, and reduced asset loss.

The system maintains a unified asset register with detailed information including asset category, serial number, location, custodian, warranty, and financial value, allowing real-time access to reliable data across the organization. Built-in barcode and QR code capabilities simplify asset identification, audits, and inventory checks, while real-time tracking ensures clear visibility of asset movement and utilization.

UniAsset enhances operational efficiency through asset allocation, transfer management, preventive maintenance scheduling, and service history tracking, helping reduce downtime and extend asset lifespan. Advanced dashboards and reporting provide insights into utilization, depreciation, and performance, supporting better decision-making. Designed for scalability, security, and ease of use, UniAsset integrates seamlessly with enterprise systems and is ideal for organizations that require strong asset visibility and control.

Key Features

- ✓ Centralized Asset Register with comprehensive asset details
- ✓ End-to-End Asset Lifecycle Management (Procurement to Retirement)
- ✓ Barcode & QR Code-Based Asset Tracking
- ✓ Multi-Location Management (Branches, Warehouses, Plants)
- ✓ Asset Allocation & Custodian Management
- ✓ Asset Movement & Transfer Tracking
- ✓ Preventive Maintenance Scheduling & Alerts
- ✓ Service History & Maintenance Records
- ✓ Real-Time Dashboards & Analytics

Why UniAsset?

- ✓ Enhance asset visibility and control
- ✓ Minimize asset loss and operational downtime
- ✓ Improve overall efficiency and productivity
- ✓ Ensure compliance and audit readiness
- ✓ Enable informed, data-driven decision-making
